Attorney Docket FLO745.0002

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (previously amended): A composition for cleaning surfaces having deposits comprising:
a cleaning solution portion; and
a disinfectant portion, said disinfectant portion is selected from the group consisting of peracidic acid and hydrogen peroxide.
- 2-15. (previously canceled)
16. (previously renumbered – formerly originally claim 30) The composition of claim 1 wherein said cleaning solution portion is in a range of 90 to 99.9% by volume of the total volume of the composition and said disinfectant portion is in a range of 0.1 to 10.0% by volume of the total volume of the composition.
17. (canceled, renumbered – formerly originally claim 28)
18. (canceled, renumbered – formerly originally claim 29)
19. (previously renumbered – formerly originally claim 30): The composition of claim 1 wherein said cleaning solution portion is selected from the group consisting of sulfamic acid, citric acid, glycolic acid, phosphoric acid, hydrochloric acid, inhibitors, dyes and water.

20. (previously renumbered – formerly originally claim 31): The composition of claim 19 wherein said cleaning solution portion is in a range of 90 to 99.9% by volume of the total volume of the composition and said disinfectant portion is in a range of 0.1 to 10.0% by volume of the total volume of the composition.
21. (previously renumbered – formerly originally claim 32): The composition of claim 1 wherein said cleaning solution portion is selected from the group consisting of and having a volume in the range of the following:
 - sulfamic acid, 0-20%;
 - citric acid, 0-10.0%;
 - glycolic acid, 0-15%;
 - phosphoric acid, 0-13%;
 - hydrochloric acid, 0-10.0%;
 - dyes, 0-0.01%; and
 - water as the balance.
22. (previously renumbered – formerly originally claim 33): The composition of claim 21 wherein said cleaning solution portion is in a range of 90 to 99.9% by volume of the total volume of the composition and said disinfectant portion is in a range of 0.1 to 10.0% by volume of the total volume of the composition.

23. (previously renumbered – formerly originally claim 34): The composition of claim 1 wherein said cleaning solution portion is selected from the group consisting of and having a volume in the range of the following:

hydrochloric acid, 0-20.0%;
citric acid, 0-1.5%;
glycolic acid, 0-15%;
phosphoric acid, 0-4%;
triethylene glycol, 0-1.0%; and
water as the balance.

24. (previously renumbered – formerly originally claim 35): The composition of claim 23 wherein said cleaning solution portion is in a range of 90 to 99.9% by volume of the total volume of the composition and said disinfectant portion is in a range of 0.1 to 10.0% by volume of the total volume of the composition.

25. (previously renumbered – formerly originally claim 36): The composition of claim 1 wherein said cleaning solution portion is selected from the group consisting of and having a volume in the range of the following:

sulfamic acid, 0-20%;
hydrochloric acid, 0-20.0%;
phosphoric acid, 0-4%;
isopropanol, 0-1%;
inhibitor; 0-1.0%; and

water as the balance.

26. (previously renumbered – formerly originally claim 37): The composition of claim 25 wherein said cleaning solution portion is in a range of 90 to 99.9% by volume of the total volume of the composition and said disinfectant portion is in a range of 0.1 to 10.0% by volume of the total volume of the composition.
27. (previously renumbered – formerly originally claim 38): The composition of claim 1 wherein said cleaning solution portion is selected from the group consisting of and having a volume in the range of the following:
 - phosphoric acid, 0-20%;
 - isopropanol, 0-1%;
 - inhibitor; 0-1.0%; and
 - water as the balance.
28. (previously renumbered – formerly originally claim 39): The composition of claim 27 wherein said cleaning solution portion is in a range of 90 to 99.9% by volume of the total volume of the composition and said disinfectant portion is in a range of 0.1 to 10.0% by volume of the total volume of the composition.
29. (previously added): A composition for cleaning surfaces having deposits comprising:
 - a cleaning solution portion; and
